

## **New Product Press Release – Immediate Release:**

### **VajraSoft Inc. announces the launch of new IP product – PatenTrak™**

*Patent Attorneys, Patent Agents, Inventors can create, manage, submit patent applications online and track e-Office Actions*

**Dublin/Fremont, CA – October 03, 2013**

VajraSoft Inc. a Web Software Application Products and Solutions Development Company based in Dublin/Fremont, SF Bay area, CA – has launched the latest product PatenTrak™ to help customers create, manage, submit USPTO EFS-Web patent application forms online and track all correspondence, e-office actions through the patent prosecution life cycle.

Adopting PatenTrak™, "Customers can prepare, assemble, submit pdf forms, that is, patent application forms online along with related documents, track all the correspondence between patent office and customer, and archive all documents and retrieve them as and when needed" said Kamesh Eranki, CEO VajraSoft Inc. Patent Attorneys, Patent Agents can share, communicate the patent status with the customer or continuously provide insights into patent prosecution process.

PatenTrak™ integrates USPTO EFS-Web fillable form documents for customers to submit to USPTO online as well as saving the information into PatenTrak database for patent applications management. "PatenTrak™ accelerates patent application document preparation, assembly and submission process providing faster Time-To-Value and improving the efficiency". This automation is in-line with VajraSoft Inc.'s strategic objective and thought leadership in delivering end-to-end Intellectual Property (IP) business services worldwide by bringing innovative solutions to solve customer's operational problems and improve efficiency" added Kamesh Eranki.

The integrated iDox™ allows customers manage all the documents – pdf's submitted to USPTO. Along with the USPTO EFS-Web forms, PatenTrak™ also provides a repository of legacy pdf forms.

Integration with PatFolio™ application ensures that all e-office actions™ flow from PatenTrak™ into PatFolio™ – and are reflected in Pending Actions Dashboard, Patent Prosecution history, improving Return on Investment (ROI) for the customer.

### **About PatenTrak™**

PatenTrak™ is web based patent application document submission & management and e-Office actions tracking solution. PatenTrak™ extracts data from fillable forms into database for future use. PatenTrak™ tracks all outbound correspondence (e-office actions) from USPTO and related responses and manages the patent prosecution communications history in PatenTrak database and share with the customers at any time.

The integrated iDox™ allows customers manage all the documents – pdf fillable forms, non EFS-Web legacy pdf forms, associated documents like description, specification, drawings, claims etc. submitted to USPTO.
