

IPWayz™ Provisional for Filing Provisional Patent Application

Create, Review and File a provisional application online to USPTO Electronic Filing System – EFS-Web with Ease.

IPWayz™ Professional is self-service cloud based application that helps you create, validate and file provisional application for patent with the USPTO.

Introduction

IPWayz™ Provisional allows you to create, manage and submit your provisional patent application to the US Patent and Trademark Office (USPTO). IPWayz Provisional provides you not only self-service provisional patent application drafting and filing, but also extended capabilities. IPWayz Provisional package options include: *Silver Package, Gold Package and Platinum package*.

Why IPWayz Provisional?

IPWayz Provisional is low cost option for you to directly create and submit your patent application and get “patent pending” status. From there on, you have one year to file a formal patent application – country application or PCT International application.

- Use the provisional patent application checklist and quickly prepare your application.
- Leverage requisite search strategy to conduct patentability search or Freedom To Operate (FTO) search and ensure you have clear path for patent protection.
- File your application online with USPTO Electronic Filing System – EFS-Web.
- Use the choice of preparing one or more provisional patent applications
- Receive Email alerts & reminders for potential patent filing within 12 months

Who Can Use it?

- Independent inventors
- Startups
