

PATENT PROSECUTION HIGHWAY AUTOMATION

Patent Prosecution Highway Automation Fast Tracking Examination of Patent Applications

The Patent Prosecution Highway (PPH) fast tracks the examination process for corresponding applications filed in participating countries by allowing examiners to reuse search and examination results. Patent Prosecution Highway speeds up the examination process of patent application as well as reducing costs and delivering significant benefits to the business.

Under the Patent Prosecution Highway (PPH), when claims are determined to be allowable in the Office of First Filing (OFF), a corresponding application filed in the Office of Second Filing (OSF) may be advanced out of turn, allowing applicants to obtain patents faster

Purpose of Patent Prosecution Highway

Patent Prosecution Highway ensures that Office of Second Filing (OSF) can utilize the search and examination results of the Office of First Filing, thereby avoiding duplication of work and expediting the examination process in the OSF.

PPH Automation Benefits

Benefits to the Patent Prosecution Highway (PPH) automation include:

- Accelerated Examination
- Examination within two to three months from the grant of the PPH request provided the application has completed all its pre-exam processing and is ready for examination.
- Manage all your Non-PCT and PCT-PPH applications with single user interface
- Decreased Prosecution costs
- Reduced Pendency
- Greater Efficiency - as more than 90 percent of PPH cases are allowed. Typical allowance rate for non-PPH cases is less than 50 percent.
- No Petition Fee - The US Patent and Trademark Office (USPTO) eliminated the petition fee in May 2010 making Patent Prosecution Highway even more cost effective for users.
- Shorter Pendency Time translates to reduced prosecution costs, more efficient / parallel prosecution and no Additional fees.

Patent Prosecution Highway (PPH) - US and other countries

The list of countries under Patent Prosecution Highway with United States (US) include:

PCT-PPH Program

PPH program extends to Patent Cooperation Treaty (PCT) - PPH countries. Applicant receiving a favorable Written Opinion or International Preliminary Report (IPR) on Patentability from one of the participating Offices acting as an International Authority may request that a corresponding national phase entry or a national application filed at the USPTO receive fast-track examination under the PCT-PPH program.

About VajraSoft Inc.

VajraSoft Inc. is Intellectual Property (IP) Management software company based in Dublin, California. As Master Class IP Solution provider, VajraSoft Inc. provides end-to-end IP management automation, easy-to-use and affordable IP Assets management software solutions for Enterprises, Law firms, Start-ups and Universities. VajraSoft Inc.'s innovative products have won many industry accolades & recognition including - UP Start Cloud award for Best Industry application for 2012. Silicon India magazine listed VajraSoft Inc. as Top 100 Technology companies in US for 2013. VajraSoft Inc is also Finalist of StartmeupHK Venture Program, conducted by Govt. of Hong Kong and UP Start Cloud Award for Best BI / Analytics Application for 2013.
