

Leading Biotechnology Company

 <p>Manage all Invention Disclosures with Ease</p> <p><i>“The built-in UI editor tools have significantly enhanced and accelerated patent preparation process.”</i></p> <p>VP & Head of IP Department</p>	<p>Challenge</p> <p>Accelerate Patent Drafting & Filing</p> <p>Key challenge is to automate and accelerate Drafting & Filing of all types of patent applications. There is not enough communication and effective coordination to get all the information needed for drafting & filing patent applications. Since it is First to file world now, it is imperative for business, based on IP strategy to quickly draft and file patent applications.</p> <p>IP Executives, Managers and In-house Patent Counsels needed to:</p> <ul style="list-style-type: none">• Get away from Siloed and disparate systems• Accelerate patent preparation process• Provision keyword based search• Reduce patent costs <p>Solution</p> <p>Accelerated Patent Preparation with Increased Collaboration</p> <p>PatFolio provisioned collaboration between inventors, in-house counsels, IP Managers and external law firms and accelerated the drafting & filing of patent applications. Using PatFolio, and built-in editors, internal teams quickly generated “USPTO submission ready” Title, Abstract, Description, Claims and Drawings pdf documents. Inventors are able to upload & submit the General Power of Attorney (GPA) documents with ease. As no external tools like Microsoft Word or pdf creation software are needed, it not only accelerated the creation of the documents, but also reduced production costs.</p> <p>Results</p> <p>Accelerated Patent Preparation & Filing</p> <p>The company was able to accelerate patent drafting and filing process. PatFolio not provided built-in editor tools, eliminated the need of external word document software or pdf generation tools and able to quickly create “ready to submit” pdf documents – attachments needed for submitting with patent application. It also served as ready reference to retrieve and review any documents related to each patent application. Keyword management ensured requisite keywords are associated to patent application and used for faster retrieval.</p>
